The Government of Brazil considers favourably the proposal contained in paragraph 214 of document A/39/504/Add.1 for continuing action of progressive development of the principles and norms of international law relating to the new international economic order by means of an intergovernmental working group within the framework of the Sixth Committee of the General Assembly. Such a group might be backed by a small support unit, which might provide liaison with the United Nations agencies and other institutions active in this field.
